

An Invitation to Join the Tiverton Trailblazers

An ad hoc advocacy group called the Tiverton Trailblazers is being formed (by Peter Moniz and Leah Cook) to gain local and state support for the development of the proposed bicycle path on the railroad tracks along the Sakonnet River in Tiverton.

As an informal group, the Tiverton Trailblazers will meet periodically to discuss the status of the proposed path and ways in which the Trailblazers can foster and facilitate its completion. No fee will be charged for membership.

Your membership is important. It will show support for both the development of the proposed bicycle path and the activities of the Tiverton Trailblazers such as its funding proposal to the Greenways Alliance/Narragansett Bay Wheelmen's Grant Project. This proposal requests funds to encourage the development of the bicycle path by clearing it of vegetation/growth and by increasing public awareness of the development of the path through signage. With the requested funds and the cooperation of the RI Department of Transportation, the Tiverton Trailblazers will clear this path so that it can be walked from end-to-end while waiting for the state of Rhode Island to construct a paved walking/biking path along its entirety.

We hope that you join us as members of the Tiverton Trailblazers.

Please accept this invitation to become a member of the Tiverton Trailblazers by sending an email to either Peter Moniz at pmoniz@prodigy.net or Leah Cook at leahcook@aol.com or write to Peter Moniz at 83 Captain's Circle, Tiverton RI 02878
